

# UGYEN DORJI

Software Developer Intern

## My Contact

- ✉ ugyendora@gmail.com
- ☎ 9289632457
- 📍 56/5, Mehrauli Rd, Sector 15, Gurugram 122001
- 🌐 Profile Website
- 🔗 Github

## Hard Skill

- Programming Languages  
C/C++, Python, JavaScript, Dart, TypeScript, Solidity, Java
- Frameworks  
Flutter, ReactJs, NestJS, MaterialUI, Flask, Spring boot
- Other  
SQL, Git, Jira, Postman, HTML, CSS, Web Scrapping, Apache Kafka, Apache Spark, Docker, Generative AI
- Operating System  
Windows, Linux, Mac OS

## Soft Skill

- Communication
- Problem-Solving
- Critical Thinking
- Adaptability
- Multi-tasking

## Education Background

- Jaypee University of Information Technology  
B. Tech CSE  
Completed in 2023
- Jakar Higher Secondary School  
XII - BHSEC  
Completed in 2018
- Jakar Higher Secondary School  
X - BCSE  
Completed in 2016

## About Me

I'm a coding enthusiast with a passion for turning intricate algorithms into elegant solutions. My commitment to clean code is borderline obsessive, and my ability to debug feels like a superpower. So, if you're seeking a developer who can speak fluent Java, Python, and maybe even a little Dart, I'm your binary bard ready to embark on the next coding odyssey. Let's redefine what it means to 'Ctrl+Alt+Deliver' together!"

## Professional Experience

### HashedIn by Deloitte - SDE Intern

May 2023 - Aug 2023

Key responsibilities:

- Acquired proficiency in various technologies including database management, Kafka, Kubernetes, Pandas, and Apache Spark during the initial three weeks.
- Developed a document summary generator with chat support using Generative AI techniques.
- Constructed a video streaming platform utilizing React.js, enhancing user engagement with multimedia content.
- Created robust APIs using Spring Boot, facilitating efficient data exchange within applications.
- Crafted mobile applications using Flutter, expanding skill set to cover cross-platform development.
- Collaborated within a team on a product development initiative for the subsequent month, contributing to the full development lifecycle.

### Chain Zeeper - SDE Intern

May 2022 - June 2022

Key responsibilities:

- Gained comprehensive understanding of NFT marketplaces and the fundamental principles of Web3 technology.
- Developed smart contracts for NFT marketplaces, encompassing functionalities like buying, selling, and auction listing.
- Cultivated effective teamwork skills, fostering an environment of collaborative learning and mutual support.
- Demonstrated adeptness in seeking guidance and assistance from team members, showcasing a proactive and cooperative approach.

## Projects

- Smart Video Bookmark
- Document Summary Generator and Chat
- Hand Written Number Detection App
- Phishing Url Detection Chrome Extension
- Weather App

## Achievements

HashedIn By Deloitte      1st award in Product Development

IEEE RnD Hackathon      3rd Rank in the IEEE organized event under the theme 'Digital Awareness'.
